The 27th Annual PRC Juried Exhibition: *EXPOSURE 2023*
VanDernoot Gallery at Lesley University
August 5 – September 17, 2023
Gallery Reception: Friday, August 11, 5-8pm

February 13, 2023 (Cambridge, MA) - *EXPOSURE 2023* celebrates 27 years of the Photographic Resource Center's (PRC) national juried exhibition. This year's juror is Shana Lopes, Assistant Curator of Photography at the San Francisco Museum of Modern Art. **The exhibition will be on view from August 5 – September 17, 2023, in the VanDernoot Gallery at Lesley University (1815 Massachusetts Avenue, Cambridge, MA) with a Gallery Reception on Friday, August 11, 5-8pm.** As a special feature, the PRC is pleased to offer three PRC Choice Awards totaling \$1000 to exhibitors who will be selected by the PRC Board of Directors, PRC Creative Director Jessica Burko, and juror Shana Lopes.

The PRC has been educating and inspiring photographers and photo-enthusiasts since its founding in 1976, and for the past 27 years has been providing a unique juried exhibition opportunity for member photographers. Each year *EXPOSURE* is juried by a respected member of the photographic community including curators, gallerists, and publishers. They are asked to select between 10 and 14 artists for exhibition. The juror then selects between 2 and 4 pieces per photographer, thus offering artists an **opportunity to showcase their work at a deeper level** than most juried shows, and making for a more enriching experience for audiences.

Exhibiting each year is work by an array of those established and emerging in the field of image making. Throughout the years, more than 400 photographers working in a broad range of exhibition-ready bodies of work have been included in *EXPOSURE*. Those working in **traditional and non-traditional approaches to photography** are encouraged to apply. Exhibiting photographers will be announced in early June 2023.
